

30 Years of Fluid Control Solutions

COMPANY PROFILE

About Us

PACLINE (M) SDN. BHD is a leading supplier of fluid control devices and sealing materials in Malaysia. Incorporated in 1986, PACLINE has to date over 25 years of experience in supplying high quality industrial products and providing effective engineering solutions to a multitude of industries in the country.

Since its inception, PACLINE has been appointed as the Sole Agent for *KLINGER FLUID CONTROL GmbH* and has also been an official distributor for *KLINGER INDUSTRIAL GASKETS*, *TEMAC*, *YAKACIK VALF* and various other internationally renowned brands. Through Pacline's many years of experience, we have even developed a full range of valves under our own Pacline brand.

PACLINE has been built upon the core principal of understanding and providing the highest level of product, service and technical support for the benefit of our clients. As such, Pacline is ISO9001:2015 certified. Furthermore, our staff at PACLINE continues to improve themselves to deliver the best results for our valued clients.

Mission

“To provide the best quality products and solutions in industries where safety and failure is not an option.”

Vision

“To be the leading integrated solutions provider in fluid and gas control.”

Industries & Applications

Over the years, Pacline has worked closely with a number of clients in a wide range of industries. Our expertise in fluid control solutions, along with our line of renowned valves and gaskets, ensures that we will be able to effectively and efficiently fulfil the demands of our clients.

1. Chemical
2. Oil & Gas
3. Construction & Infrastructure
4. Pulp & Paper
5. Food & Beverages
6. Pharmaceutical & Health Care
7. Energy
8. Transportation (Marine & Automotive)
9. Industrial Process
10. Refrigeration & Air Conditioning

Products

Our line of high quality products have been successfully applied all around the world, mostly in industries of high safety requirements and zero tolerance. All our product suppliers always make efforts to implement the newest technical standards, ensuring that their products meet the highest requirements of safety and quality over a long period of service in the client's facility.

1. Klinger KVN Piston Valve
2. Bellow Sealed Globe Valves
3. Ball Valves
4. Check Valves
5. Butterfly Valves
6. Safety Valves
7. Manometer Cocks
8. Instrumentation

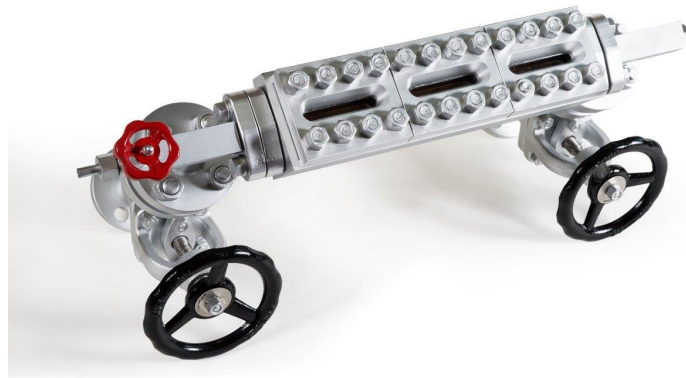

- a. Liquid Level Gauges
 - b. Magnetic Level Gauges
9. Gauge Glasses
- a. Transparent

Reflex

Circular

11. Industrial Gaskets
- a. Asbestos
 - b. Non-Asbestos
 - c. Metallic

d. Ex-Graphite

12. Sealing Material

a. Gland Packings

b. Plastics (PTFE)

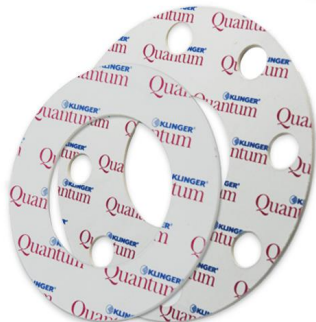

13. Blowdown Valves

14. Solenoid Valves

15. Sight Glasses

16. Steam Traps

17. Angle Seat Valves

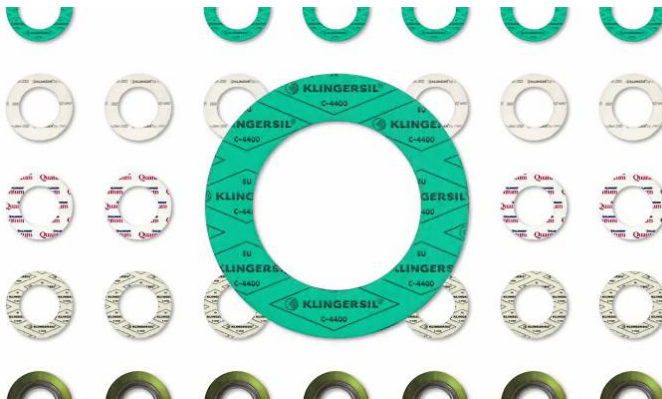

Services

Pacline is committed to meeting and exceeding the expectations of our clients. As such, we provide a dedicated service, backed by market leading products to ensure a satisfying experience for all our clients.

KLINGERexpert

Selecting the right gasket material is crucial to the effective operation of a reliable joint. The KLINGERexpert software contains data on many Klinger materials and carries out sealing calculations for new plants, new

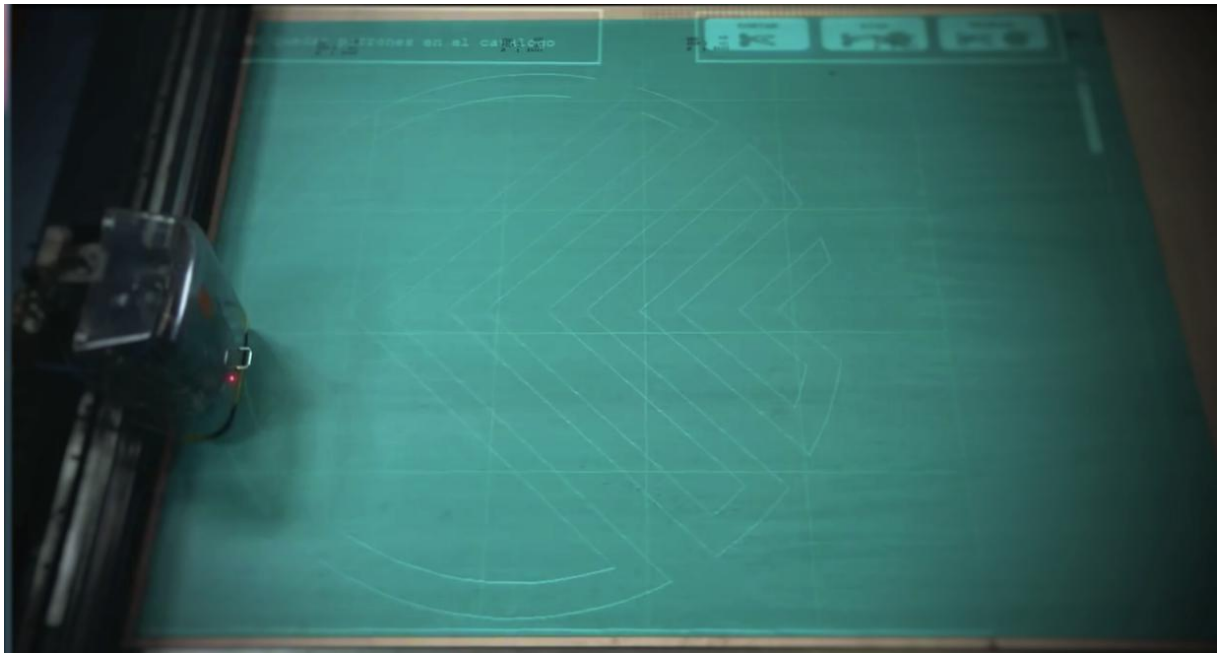

equipment and maintenance work.

- Automatic selection of gasket material based on media & conditions
- Automatic calculations for ANSI, DIN & JIS flanges
- Calculations for custom flanges if not covered by the above
- Automatic calculations of maximum and minimum sealing stress
- Automatic calculation of bolt torque requirements
- Safety by design
- Integrity of assembly

Gasket Cutting Services

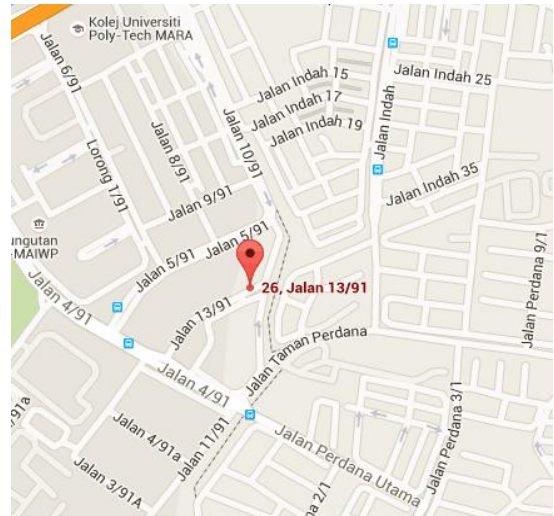

Pacline has invested heavily in our technical infrastructure to keep up with the high accuracy demands of our customers. Our trained technicians deal with the cutting of gasket that are widely used in various industries. They ensure the dimensional accuracy of all finished gaskets are maintained, to preserve its integrity for optimal usage in the field.
